foreign information requirements of the U.S. Government which re-  
quire collection [REDACTED] and prepare and maintain a  
current listing of those [REDACTED] targets deemed to  
have a priority status in terms of the over-all interests of the U.S.  
Government", has asked the CIA to prepare a current listing of its  
priority targets in Communist China.

2. In view of this, it is requested that your Area prepare a  
listing of its most critical targets for China, including, however,  
only those targets which meet criteria shown in the underlined por-  
tions of paragraph 1. above.

3. In the presentation of your targets, the location of each  
target with all details possible including geographic coordinates  
and conventional place names, should be given. Alternate spellings  
of place names should also be provided. Where a target is not neces-

not definitely known, the most probable location, any alternate loca-  
tion, and/or all possible locations should be indicated.

4. To demonstrate the critical nature of the targets, a state-  
ment of justification for each target is essential. In addition, it  
must be shown that the target has a direct relationship with "Priority  
National Intelligence Objectives" as expressed in DCID 4/5, 18 October  
1955.

5. At this time, only targets are desired, not requirements.

6. It is requested that the preparation of these targets be  
given the most careful consideration and that they be submitted to  
this Office by 10 July 1956.

7. It is suggested that your targets be presented in the form
